August 2022

Subject: American Iron and Steel, Buy America, and Buy American Compliance

ThermOmegaTech, Inc. certifies that our Circuit Solver product family of valves with ProPress Ends, Thermometer, Strainer, Sanitary Flush, Union, and Assembly are fully compliant with the following United States' government provisions:

Environmental Protection Agency (EPA):

- American Iron and Steel Requirement, expanded through America's Water Infrastructure Act (AWIA) Sec. 2022 (2018)

Department of Defense (DoD):

- Buy American Act, FAR 52.225-9 Buy American-Construction Materials (2022)

Additionally, as a stand-alone product, the Circuit Solver valve is fully compliant to:

Department of Transportation (DoT):

- Buy America Act at 41 U.S.C. §§10a-10c

If necessary, most valves requiring adherence to more stringent sourcing policies can be obtained on a case-by-case basis.

The manufacturing process for Circuit Solver takes place onsite at our Warminster, PA facility.

If changes regarding ThermOmegaTech's compliance to any of these provisions occurs, this letter will be amended accordingly.

Fred Guevara,
